Turf News Overview

By Richard Webster, Course Superintendent

Summer is upon us with wind, warm temperatures and little rain. As is with each summer we look to our source, Johnson Creek, for irrigation of the course. And each year we wonder how long it will be able to provide us with water. As long as it is moving over the dam on #4 we have a good supply to irrigate the course with. When the water stops running over the dam we then go into our conservation mode of what and when to water. We concentrate on watering high priority areas first, with greens at the top of the list. Then tees and fairways followed by the rough. As long as there is plenty of water in the creek we will be able to do some supplemental watering during the day with the majority of it done over night. We hope that when and if it does rain that the creek gets the majority. Try to stay cool and enjoy the summer.

A Note From Your Cap Fund Committee

To all GSW Members. Just a note of "Thanks" to all of you that have taken the time to fill out the information sheets sent out to you asking for your Capital Fund recommendations. If you haven't sent yours in, it's never too late - we would like to hear from everyone. To update you, The Committee has had our first meeting. In that meeting, we discussed exactly how the committee was to function and outlined our relationship with APGM and your Board Of Governors. We also elected our Chairperson for the committee. Congratulations to Mark Pistorius, your CapFund Chairperson. While many projects are being discussed and considered, there hasn't been any one specific project finalized and proposed to the BOG - yet!! We have, however, received approval to begin the process of gathering bids on a patio/deck. Based on the feedback from you - this is one of the projects that the majority of you would like to see. Thanks again for your feedback, and we promise to keep you posted as to our proceedings.
