Green Committee Report - August 2010

In March, we set out an ambitious schedule for improvements to the course and we are making progress.

Some of this month's improvements are:

1. Fairways are clearly defined and are playing great.
2. #1 Red Tee - Pathway to the box has been cut and should make going to the tee box easier.
3. #11 Tee: Leveling complete is complete and is now open for play.
4. #12 Tee - Richard has trimmed the bushes by the water cooler and cleaned it out. The tee base signage has been completed.
5. Maintenance is continuing to address encroachment issues around the greens and will continue to do so over the next two months.
6. Bathrooms near #6 and #17 – Lantana and another perennial flower have been planted in front of the house; red rock area expanded on both ends.
7. Driving range net - has been replaced; the range is open and ready for your enjoyment.
8. No Parking signs have been installed in the parking lot.
9. All greens – All punches have been completed for 2010 and will not be done again until April 2011. The last punch was very successful and the greens have turned around and come back very quickly. All greens are being groomed daily and will be through October. All greens are being rolled as much as possible, weather permitting.
10. Adopt-a-Hole program: Our thanks for your participation; it really makes a huge difference on our tee boxes, fairways and greens. Please encourage everyone you play with to fill their own divot plus one more, especially when it's "your" hole.
11. Tee base signage (ball washers, signage and red rock) for the holes not completed will continue.
