MEMBERSHIP NEWS

By Lisa M. Harrison, Membership Director

We must continue to focus on sponsoring new members to the club in order to make the improvements to the club that you want. If you would like to learn more about what you can do to help us reach our goal come and join us for our next Membership Committee meeting on August 14. I hope that you will take the time to share your club with someone you know and help continue to grow the club.

From Your MGA

First, we would like to thank everyone who has participated in and supported this years MGA. It has been a fantastic year so far and a lot of fun. The MGA's goal is to continue to be a very interactive part of the overall membership. We would greatly appreciate any feedback or suggestions regarding tournaments, formats or the overall MGA. What are we currently doing that you like? Is there anything you would like to see changed? Please feel free to contact our Tournament Director, Robert Smith, at rsmith4870@hotmail.com. We look forward to hearing from you and seeing you at the next MGA tournament on August 26, 2006. 2094!
Thank you again!

Turf News Overview
By Richard Webster, Course Superintendent

Aerifacation of the greens was July 11, 2006 and the holes were 3/8". The positives are that it is prime growing conditions for the plant. We continued to fertilize the greens before and after the punch to encourage growth of the plant as we punch the holes. Most of the study's that have been done and the continued research suggests that 20-30% of the putting surface be affected each year from Aerifacation. After we finish our fourth punch we will have removed roughly 8%. The lack of any rain and increased temperatures is beginning to affect our water supply so we will begin to cut back our day time watering so that we can have full night time watering capabilities. Our greens are healed over well enough that we have gotten back into our routine of verticutting and topdressing on a regular basis. We will do our regular foliar fertilizing application and continue to roll the greens to get back the speed. Tee renovation has been completed on # 6. It should only take 3 to 4 weeks before it is ready to play on. The sod that was removed from the tee, which was over 3,000 square feet, was used throughout the course. We continue to monitor our water supply so as to use it to benefit the most area as we can. This is and will be a concern until we get some beneficial rain.

Golf Shop News

Did you know...?

Did you know that we desperately need some rain? Did you know that I feel the course is in excellent condition in spite of the lack of rain? Did you know that #6 tee box has now been leveled? Did you know that I promised you that it would get done...eventually? Did know that Lauren has worked here a MONTH and she already is taking a second vacation? Did you know that we have some great member benefit rates in place right now? Did you know that the Tee Esta sign up board is posted in the golf shop and the field will be limited to 72 teams? Did you know that you should get signed up NOW? Did you know that you shouldn't be left out? Did you know that we still need to buddy up on the carts; 2 carts for a foursome and 3 carts for a fivesome? Did you know that you can still find your member number somewhere in this newsletter for free carts for the month of August? Did you know that Tiger is back on top of his game? Did you know that I will miss D.A.? Did you know that this will be an interesting year with T.O.? Did you know that all brand new guests that come out to GSW must fill out a guest card? Did you know that the golf shop needs all members and guests to check-in the golf shop? Did you know that we need to have all carts returned to the cart staging area? Did you know that I need to tell all of you thanks? Did you know that it is time for me to go?

Arnold Palmer and La Trobe**

This was one of the most memorable trips of my life. I met a man that was the most unpretentious and out going person for someone of his stature. To have Arnold Palmer's name tied to our club can only be a huge positive for Great Southwest's future.
